OUR COURSE OF ACTION

(Session 2025-26)

BEST PRACTICE – 1

1. Commitment To Teaching And Learning :

The institution introduced skill-oriented learning opportunities to enhance employability and professional competence among students.

2. Objectives :

- To develop practical and professional skills.
- To improve employability readiness.
- To bridge the gap between theory and practice.

3. The Context That Required Initiation Of The Practice :

Contemporary education emphasizes skill development to meet evolving workplace and societal needs.

4. Practice :

- Skill development workshops.
- Communication and leadership training.
- Teaching competency enhancement activities.
- Practical and project-based learning.

5. Evidence of Success :

- Improved practical competencies among students.
- Enhanced confidence and career preparedness.
- Better performance during internships and teaching practice.

6. Problems Encountered :

- Need for additional resources and industry exposure.
-

BEST PRACTICE – 2

1. Commitment To Teaching And Learning :

The institution promoted sustainable practices and social responsibility through environmental and community-oriented initiatives.

2. Objectives :

- To create environmental awareness.
- To encourage sustainable practices.
- To develop socially responsible citizens.

3. The Context That Required Initiation Of The Practice :

Environmental conservation and social responsibility have become essential priorities for educational institutions.

4. Practice :

- Tree plantation drives.
- Plastic-free campus campaigns.
- Energy and water conservation awareness.
- Community service and social outreach activities.

5. Evidence of Success :

- Increased environmental awareness among students.
- Active participation in sustainability initiatives.
- Positive impact on community and campus environment.

6. Problems Encountered :

- Continuous monitoring required for long-term sustainability practices.
